Hi...i responded to your call, but either way, thanks...  
call my cell when you can.....415-722-5270  
yes we can include the navy...we want to get to the bottom of what epa required in terms of removal of contamination, and what was actually done.

Dear Bradley,

Jackie and I called you last Monday and left a message because we wanted to talk to you to check in about potential next steps. I'm at a conference this week, but I will try to call you during a break to clarify what you want from this meeting and the Navy's role.

Thanks!

- Lily

Hi...I know folks are busy, but it is vital we have a follow up call to discuss the UCSC findings and get straight on the facts of the cleanup.

I emailed about a week ago requesting we have a call, so it would be great if that can happen.

Lily and Jackie...when is good for you and EPA technical staff? Stuart Walker of EPA should be included.

Thanks

Bradley

HI Lily and Jackie....we should also invite Jared as well as Stuart

Walker for the call...

Hi everyone,

Can we set a call to go over the information presented by UCSC folks  
at the task force meeting as it would be good to get clarity on the  
facts...and next steps.

Lily, Jackie and Dan...when is good for you?

Bradley
